

# JIE HUANG

R&D Project Management | PMO | Software Engineering Background

+86 136 5763 1318 | jie.huang2028@outlook.com | Expected Graduation: Jun 2028 | Available for Long-Term Internship

## EDUCATION

**Southwest University (Project 211)** **M.Ed. in Educational Technology** **Sep 2025 - Jun 2028**

Rank: 3/27 (Top 15%) | First-Class Graduate Scholarship

- Relevant coursework: Python Programming, Instructional Systems Design, Educational Software Design and Development, Intelligent Tutoring Systems.

**Chongqing University of Technology** **B.E. in Software Engineering** **Sep 2021 - Jun 2025**

Rank: 2/162 (Top 2%) | Chongqing Outstanding Graduate | First-Class Scholarship for three consecutive years

- Selected honors: National Second Prize, China Undergraduate Mathematical Contest in Modeling; Third Prize, Chongqing Computer Design Competition; Chongqing Advanced Individual in Campus Civic and Cultural Development.

## INTERNSHIP EXPERIENCE

**Transsion Holdings** **R&D Operations Management Intern** **Aug 2025 - Mar 2026**

Integration Maintenance & Development Department | Long-term Internship

- **Quality Operations:** Built and maintained a version-quality monitoring system covering release success, reopen, and won't-fix metrics; supported a 98.44% major-version milestone achievement rate and a 98.9% tOS device milestone achievement rate.
- **R&D Efficiency:** Established meeting action-item and time-tracking mechanisms, increasing action-item completion by 56%; standardized weekly IPM time reporting and monthly analysis to support upgrade-project cost estimation, contributing to a 20% reduction in average R&D cost per project.
- **Task Management:** Tracked department-level priorities through an operations management platform, coordinating with team managers and key contacts to review progress, risks, and delivery outcomes each week and enable full visibility of critical tasks.
- **Organization & Data Operations:** Designed a standardized three-level review process for recognizing outstanding R&D practices; coordinated a 230+ person annual event and four monthly activities; supported workforce-cost dashboards and department expense tracking.

**SHEIN** **IT Project Management Intern** **Jan 2025 - Aug 2025**

Global Operations Center, Consumer Shopping Experience | Long-term Internship

- **Demand & Release Management:** Coordinated delivery across three business streams and an on-device intelligence stream, working with 29 product managers and engineering stakeholders; supported 32 release iterations while managing 40+ requirements per week.
- **Project Coordination:** Led weekly project meetings and organized requirement and technical reviews; monitored throughput, 21-day completion rate, and technical-demand share to surface delivery risks and support stable releases.
- **Process & Data Operations:** Improved the demand-management workflow by establishing a project scheduling pool; maintained JIRA fields and built an R&D capacity dashboard to improve traceability, workload visibility, and project transparency.

## SKILLS & LEADERSHIP

- **Tools & Technologies:** JIRA, SQL, Axure, Codex, Claude Code; working knowledge of Java and Python; familiar with Spring Boot, MyBatis, and Vue.
- **Leadership & Communication:** Four years as class Youth League Secretary and 149 hours of volunteer service; hosted Transsion's department annual event and reached the finals of two university speech competitions.
- **Certifications:** CET-6; PRC Class C1 Driver's License.
